

REQUEST FOR
MATERIAL SAMPLES FOR EVALUATION FOR THE TERMINAL MODERNIZATION PROGRAM

The Allegheny County Airport Authority (ACAA), operator of Pittsburgh International (PIT) and Allegheny County Airports (AGC) in Pennsylvania, is hereby soliciting MATERIAL SAMPLES FOR EVALUATION.

The materials are being evaluated for consideration in the final design of the Terminal Modernization Program (TMP) at PIT, a new terminal complex that will be constructed adjacent to the existing Airside Terminal. The TMP will include:

- A new three-level, approximately 700,000-square foot terminal facility;
- A new five-story garage connected to the Landside Terminal. The garage structure will house approximately 3,500 public parking spaces, rental car customer service area, ready return spaces, and a separate rental car Quick-Turn-Around (QTA) facility;
- Refurbishment of the existing Airside Terminal concourses

The products solicited under this request are identified below, and the pre-final design product specifications are available on www.PITtransformed.com:

- Resinous Flooring
- Resinous Matrix Terrazzo Flooring

Interested suppliers will first submit a statement of product qualification, with information showing compliance with the performance criteria of the product specification. After compliance is verified by ACAA, material donations will be accepted in the quantities specified on the website. ACAA will coordinate for installation of materials in a public area of the Terminal for public use and in-place performance evaluation. For those materials that are installed, ACAA will display product and manufacturer information in a consistent format to be determined, but no other advertising will be permitted on site.

Participation in this qualifications-based material evaluation is voluntary. All materials provided will be considered a donation and will become property of the ACAA. No agreement between the ACAA and the participating suppliers will be made and no costs will be paid or reimbursed. ACAA reserves the right to reject or to install any, all, or none of the material samples provided.

The ACAA encourages responses from small firms, minority and women's business firms, and firms that have not previously worked for the ACAA.

All submittals will be received at the TMP Program Management Office at the Allegheny County Airport Authority (ACAA) for the periods of time identified on the website.

Please direct product qualification statements to:
