

Identity Matters @ our Smarter Airport

MyPITID Fact Sheet for Authorized Signatories

To Know

- We are implementing an Identity Management System (IDMS) at PIT to **digitize and automate all security credentialing processes** and **simplify our badge scheme**.
- **Manual forms and visits to the Access/ID Office go away!** You can do everything that you need to do from your desk with just a few clicks of your mouse.
- **Authorized Signatories will have their own MyPITID system portal** and will receive email notifications from the system when an action is needed.
- **The new MyPITID system and badges will be live in April 2023.** Authorized Signatories will be required to complete an eLearning course to receive system access.

To Do

- Ask questions and provide feedback!
- Go to the Airport Badging website to watch our intro video and stay up to date with FAQ's.
<https://flypittsburgh.com/myPITID/>
- Help spread the word. Let your badge holders know about these changes and direct them to the website to learn more.
- Start ensuring that new badge applicants provide their email address on their badge application today. Emails will be required in the new system.
- Watch for further details about webinars, training and go-live plans in the coming months.
