

## **General Information**

The parking lots and garages at PIT are designed and intended solely for passenger vehicles. Oversized vehicles (OSVs) are subject to citation, additional fees and/or towing at the vehicle owner's expense.

It is your sole responsibility to ensure that the vehicle you bring is qualified to park at the location you choose. Lots are NOT required to honor online reservations for those seeking to park an oversized vehicle. Refunds are NOT offered to those denied entrance for this reason.

## **List of Oversized Vehicle (OSV) Categories**

Unless indicated otherwise, as a general matter, any vehicle over 17 feet in length, 7 feet in width (including mirrors and running boards), or 8 feet in height is considered an OSV.

Below is a list of vehicle types that Pittsburgh International Airport defines, without exception, as an OSV. PIT may, in its sole discretion, change and/or update this list at any time without notice.

- Passenger vans that meet the dimensions of an OSV
- RVs
- Buses
- Trailers
- Campers
- Third/Fifth Wheels
- Modified vehicles
- Specialized equipment/machinery
- All commercial vehicles and similarly classified vehicles that meet the dimensions of an OSV

## **Contact Information**
